What has prompted the interest in the Camino de Santiago also known as the Santiago de Compostela? Has modern man suddenly discovered pilgrimages or decided it is now time to repent? Last night Jon Drane spoke at the Library telling his experiences of walking the Camino with his family. The audience was rapt, and had so many questions. Two were already booked to go in October and others were still in the planning stages. You can even do an on-line tour at Jon's website <http://www.jondrane.net/> . We are now eagerly awaiting the reports from those booked to do the pilgrimage in October and hear how the inspiration from the Library books became an action to be carried out so far away.
