Dr Jonathan Drane www.jondrane.net

Dr Jonathan Drane is an independent researcher and advisor to government, corporate, legal and academic sectors. He applies research methods to solve complex problems through project analysis in the commercial construction and the development sector.

Jonathan is a recognised expert in city precinct development with an emphasis on activation of dormant cityscapes. Jonathan's doctoral research project (2011 to 2014) studied dormant cityscapes in several Australian regional cities and how they were brought to life.

Understand your city's growth dynamics and city precinct activation

-Understand how trading and development ecologies combine to control your city's development profile.

-Learn about Property Development as a dynamic agent of change of our cities and the buildings that accommodate and facilitate your businesses.

-Understand the dynamics of land parcels in your city precinct and how they act to create your city's future.
